

FUMEX® PRG

The ideal extractor for industrial environments.

Fumex PRG is based upon the PR arm that with new technology in combination with new materials and a focus on design gives Fumex PRG many new and important advantages:

- Unique ease of manoeuvrability.
- High positional stability.
- Hood in PVC designed for maximum capture efficiency and extraction.

PRG's design is based on FUMEX's basic principles:

- External arm support.
- Supplied partially assembled for ease of installation.

PRG can be equipped with LED lighting and/or switch to control fan/damper.

FUMEX PRG is available in the lengths 2, 3 & 4 m.

The Fumex range also includes fans, accessories, automatic control gear and filters for local extraction
